Payroll expense: The payroll expense account tracks payroll items that are an expense to your company. The cost of goods sold includes the cost of raw materials, freight charges to obtain raw material for a store, work to build the finished goods, and freight charges to get the goods to the customer. These include salaries, salaries, ba aes, commes, company contributions, such as a health plan paid by the company, and the portion paid for taxes such as Social Security and Medicare. The graphical sector is used by accounting software to aggregate information about an entity's financial statements. The grAifico Classified for the number of the account, to facilitate the task of locating specific accounts.
